

Techfiesta **ROBO SOCCER**

RULE BOOK

Robo Soccer

DATE Friday, 23 October 2026

VENUE AISSMS Institute of Information Technology, Kennedy
Road, Near R.T.O, Pune - 411001, Maharashtra, India

1. Event Date and Timing

Date	Friday, 23rd October 2026
Reporting Time	09:00 AM
Competition	09:30 AM onwards
Event Duration	09:00 AM to 05:00 PM

2. Venue

AISSMS Institute of Information Technology
Kennedy Road, Near R.T.O., Pune, 411001, Maharashtra, India

3. Contact

Sujal Gaikwad	+91 85309 43237
Vishakha Shahakar	+91 96994 57989

4. Registration Fees and Prize Pool

Bots are provided by the organizers. Teams do not need to bring a robot.

REGISTRATION FEE Rs. 199 per team	TEAM SIZE 1 to 4 participants	PRIZE POOL Rs. 5,000 total
--	--	---

5. Event Overview

Robo Soccer is a 1v1 robotics competition where teams battle it out on a dedicated football arena using robots provided by the organizers.

The competition tests participants' robot control, speed, maneuverability, strategy, real time decision making, and engineering skills.

The competition follows a knockout format, where teams compete head to head and the winning team advances to the next round until the final match determines the champion.

6. Why Participate

- **Experience an exciting robotics football challenge.** Take your allotted robot onto the arena and compete in a fast paced football match.
- **Test your control.** Push the robot's speed, maneuverability, and responsiveness to the limit.
- **Develop strategic thinking.** Make quick decisions and adapt your gameplay in real time.
- **Apply your skills.** Put your robotics, control, and real time decision making concepts into practice.
- **Compete for the championship.** Battle against robotics enthusiasts from different colleges for the winning title.
- **Earn recognition.** Compete for prizes and certificates while showcasing your driving skills.

7. Eligibility and Team Composition

7.1. Eligibility

- The event is open to students and robotics enthusiasts.
- Participants from different colleges are welcome to participate.

7.2. Team Composition

- Each team must consist of 1 to 4 participants. Solo participation is allowed.
- Every team must nominate one operator who will control the robot during the match. In a solo team, that participant is the operator.
- In teams of two or more, the designated operator may be changed between matches, subject to the organizers' approval.
- Bots are provided by the organizers and allotted according to availability and event procedure.

8. Event Highlights and Structure

8.1. Match Format

- The competition follows a 1v1 knockout format.
- Each match will have a total duration of 6 minutes.
- The match will consist of two halves of 3 minutes each.
- Teams will switch sides after the first half.
- The team scoring the most goals at the end of regulation time wins the match.
- The winning team advances to the next round.

8.2. Tie Breaker

If the score is tied at the end of regulation time:

- A Golden Goal period will be played.
- The first team to score a goal during the Golden Goal period wins the match.
- The match will end immediately once the Golden Goal is scored.

9. Scoring System

- Each goal successfully scored against the opponent will count as 1 goal.
- The team with the greater number of goals at the end of the 6 minute regulation period will be declared the winner.
- In case of a tie, the Golden Goal rule will apply.

MATCH WINNER

Team with the highest score. The winner of each match advances to the next round.

10. Competition Rules

1. Only one team member is permitted to operate the robot during a match.
2. Teams must report to the venue before their scheduled match.
3. Teams must be ready when their match is called.
4. Delayed teams may be subject to walkover or disqualification at the discretion of the organizers.
5. Physical interference with the opponent's robot by team members is strictly prohibited.

6. Participants must not enter the arena during an ongoing match unless authorized by the referee or organizers.
7. Deliberate damage to the opponent's robot or the arena may result in disqualification.
8. Participants must follow the instructions of the referee and event coordinators at all times.
9. Unsportsmanlike or unsafe behavior may result in penalties or disqualification.
10. The referee's decision regarding fouls, goals, penalties, and match results will be final and binding.

11. Robot Specifications

All teams compete using a robot provided by the organizers. The provided robots conform to the following specifications.

11.1. Dimensions and Weight

- Maximum robot dimensions: 30 x 30 x 30 cm
- Maximum weight: 5 kg, including batteries

11.2. Power Supply

- Maximum operating voltage: 12V DC
- Power must be supplied through on board batteries.
- Batteries must be properly insulated and securely mounted.
- External power supplies are not permitted during the match.

11.3. Control

Both wired and wireless control systems are permitted.

Wired control.

- Controllers must use properly insulated and flexible cables.
- Cables must not create a safety hazard or interfere with the arena.

Wireless control.

- Bluetooth, RF, Wi-Fi, or similar wireless systems are permitted.
- Teams are responsible for ensuring that their wireless systems do not interfere with other robots or event equipment.

11.4. Mobility

- Robots must operate using wheels or tracks.
- Flying or jumping mechanisms are not permitted.
- Robots must be operated safely within the competition arena.

12. Equipment Handling and Safety

- Robots are the property of the organizers and must be handled with care for the duration of the competition.
- Teams must not modify, dismantle, rewire, or replace any component of the allotted robot without permission from the organizers.
- Robots must not be operated in a way intended to damage the arena or the opponent's robot.
- Teams must report any damage, loose connection, or unusual behaviour to the organizers immediately.

- Any intentional or negligent damage to a robot may result in disqualification and recovery of the applicable repair or replacement cost.
- Robots must be returned to the organizers at the end of the competition.
- The organizing committee may inspect robots before allowing them to participate.

13. Fouls and Penalties

Penalties may be imposed for:

- Intentional physical interference.
- Dangerous or reckless operation.
- Deliberate damage to another robot.
- Unauthorized entry into the arena.
- Unsportsmanlike conduct.
- Using equipment that violates the specified technical requirements.

Depending on the severity and nature of the violation, penalties may include a warning, a restart, a goal penalty, or disqualification. The referee and organizing committee will determine the appropriate penalty based on the circumstances.

14. Winners and Certificates

CHAMPION Winner of the final match.	RUNNER UP Finalist team.
--	---

Certificates will be awarded to the champion team, the runner up team, and participants as specified by the organizers.

15. Important Note

- Robots are allotted by the organizers and must be operated within the specified technical and safety requirements.
- The organizers reserve the right to conduct a technical inspection before or during the competition.
- Any robot found to be modified or unsafe may be withdrawn from the competition.
- The organizers reserve the right to modify the match schedule, arena layout, technical specifications, or competition rules if required for safety or smooth execution.
- Any such changes will be communicated to participants before the competition.
- The referee and organizing committee's decisions regarding match proceedings, penalties, technical compliance, and results will be final and binding.
